

View Messages/Notifications

Note: Messages are sent by users using the Contact button. Feedback is sent via the Feedback button on the App. Users of the USPDhub App may send tips with the Tips button. Users have the option to send messages anonymously and include their GPS location; however, you control this option.

There are three ways you are able to view messages.

A. Click on the 'App Message(s)' or 'App Notification(s)' link in the Account

Notifications section of your Dashboard.

B. From the Dashboard:

1. Select 'Messages' in the header.

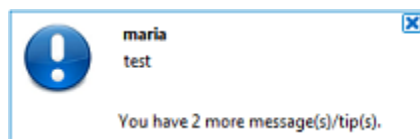

2. You will be able to view all your messages and notifications as well as the date and time they were sent.

3. Click on the Subject's link to read them.

C. From the Desktop Notifications Manager:

1. An alert will sound and display whenever a message comes in.

2. Click on the pop up which will open the Notifications Manager.
3. Click 'View' to read the message.
