

Change Audible Alert Settings

Note: Settings allow you to select how often the notification manager will check for new messages and the number of messages that will display.

From the Notifications Manager Message Center on your desktop:

1. Select 'Options'  on the upper left.

2. Click 'Settings'.
3. Choose the number of minutes between notification checks from the drop down menu.

4. Pick the number of messages you would like to display.

5. Choose the number of tips (feedback) you wish to display.

6. Select 'Update'. 

7. Click 'Yes'  to be taken back to the Message Center.
