

Display/Hide Buttons on Mobile App

From the Dashboard or Menu:

1. Select 'Mobile App'. 
2. Select 'General App Settings'. 
3. Go to App Display Settings on the right; click 'Continue'.

4. **To display** buttons on your Mobile App, check the box by each button name you wish to include. Note: Buttons may be renamed; however, the names in the parentheses are the default titles on your Dashboard's icons. (See Change Button Name in the Help Menu.)

<input checked="" type="checkbox"/>	<input type="text" value="Notifications"/>	(Notifications)
<input checked="" type="checkbox"/>	<input type="text" value="About Us"/>	(About Us)
<input checked="" type="checkbox"/>	<input type="text" value="Updates"/>	(Updates)
<input checked="" type="checkbox"/>	<input type="text" value="Social"/>	(Social)
<input checked="" type="checkbox"/>	<input type="text" value="Links"/>	(Links)
<input checked="" type="checkbox"/>	<input type="text" value="Gallery"/>	(Gallery)
