

Display/Hide Events Button

Note: The Events button is set to display on your App by default.

From the Dashboard or Menu:

To display your events:

1. Select 'Mobile App'. 
2. Select 'General App Settings'. 
3. On the right go to 'App Display Settings' and click 'Continue'.

4. Make sure the box by Events is checked.
5. An Events button will display on your App and when clicked a calendar with your events will appear.

To disable the Events button:

1. Follow steps 1 - 3 above.

2. Uncheck the box by Events.
3. When this box is not checked, the Events button will not appear on your App.
