

## Change Call Button Order

Note: This feature allows you to control the order in which call buttons are displayed in the directory on the App.

From the Dashboard:

1. Select the private call directory you wish to manage.
2. Click the 'By Custom Order' radio button on the upper right.

**App Display Order:**

☐ By Date ☒ By Custom Order

3. Select 'Change Order'. 
4. A Directory window will open with all your call button titles listed.

5. Drag and drop the titles to the desired position.
6. When you are satisfied, select 'Update'  and your buttons will display in your app's directory in the order chosen. Note: The order does not change on the management screen.
