

Add Content Modules

You may customize your App by adding new modules. These may include content only or specific forms. You have full control of what displays.

From the Dashboard:

1. Go to the Market Place on the right. 
2. Select 'Content Module'. 
3. The billable amount will display. Click 'Continue'. 
4. This will take you through payment processing where you may complete your order.
5. On the payment Thank You screen  click the 'Dashboard' button. 
6. Click 'Install' on the Install Content Module  on the right under Downloads.
7. In the pop up window name your new content module (maximum 13 characters) and choose a button icon that will display on your App as well as your Dashboard.

Install and configure Content Module - step 1

1. App Button name

2. App Button Icon (Select any one from the below list)

8. Click 'Submit', then 'Close' when the installation has been completed.

9. Your new module is now ready to use.
