

## Change Content Order

Note: This feature allows you to control the order in which content is displayed on the App.

From the Dashboard:

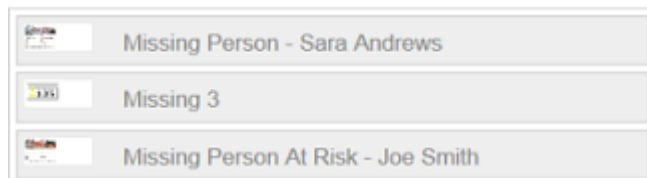

1. Select the icon in which your content is located.
2. You have two options.
  - a. On the upper right click the radio button 'By Date'  
**App Display Order:**  
☒ By Date ☐ By Custom Order and the system will automatically sort the content on your App by the date it was published,

Or

- b. Click the radio button 'By Custom Order'. ☐ By Date ☒ By Custom Order

- i. Select 'Change Order' on the right.  An App Display Order window will open with all your content

titles listed.

- ii. Hover over the title of the content and click the move icon.

Drag the title to the desired position.

- iii. When you are satisfied, select 'Update'  and your content will display on your App in the order chosen.
