

Display/Hide Action Buttons

From the Dashboard:

1. Select 'Options' in the header.

2. Choose 'App Display Settings'.
3. **To display** all the buttons, check the 'Display Action Buttons' box.

☒ Display Action Buttons

Or

4. Check the box by each action button you wish to display as described below:

☒ Photo Capture

- a. ☒ Geo Location (GPS Control) By checking these boxes you allow your users to include Photos and/or their Geo Location when they contact you.

- b. ☒ Sharing By checking this box a Share button will be available for you to include on the information you are publishing. The App user can click on this button and share specific content to their personal social media accounts.

- c. ☒ Anonymous Control By checking Anonymous Control users will have the option to send their messages anonymously. Leaving the box unchecked will force users to provide their first name and either their phone number or email address.

5. **To hide** the buttons, uncheck the box by each action button you wish to hide or uncheck the 'Display Action Buttons'

☒ Display Action Buttons box to hide them all.

6. Select 'Update'.
