## Unblock Messages

From the Dashboard:
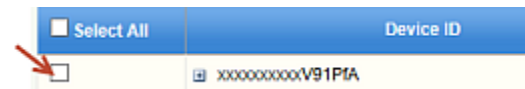

1. Select 'Options' in the header.

2. Choose 'Blocked Senders'.

3. If you have more than one blocked sender you may identify him by clicking on the box next to the device id number.

4. This will display the subject and message for that device.

5. Select the check box next to the sender you wish to unblock.

6. Select 'Unblock Sender'.
