Add Text to Content Template

1. Select 'Add Text Block'. Add Text Block

2. Click on the 'Add/Edit Text' button. Add/Edit Text

3. Enter your text. You may format your text using the editor tool bar. You may choose fonts, font size, color and font style from the drop down menus. Arial ▾ 12px ▾ Black ▾ B I U

   Important! This formats the text for the entire**block**.

   Tip: Font sizes larger than 14px are easier to read on the App.

4. If you would like to format the entire**template** the same, check the box by Master Editor at the top ☐ Master Editor Applies Changes To All Text Boxes and format your text.

5. When finished click 'Submit'. Submit
