## Disable Default Auto Share to Facebook

Note: When this feature is turned off, you will always have the option to share a particular item when you publish your content.
From the Dashboard:

1. Select 'Options' in the header.

2. Choose 'Setup Social Auto Share'.

3. Select 'Facebook'.

4. Uncheck the box by 'Enable default auto share'.

   Enable default auto share:

5. Select Save.
