## Email Content

From the Dashboard:

1. Select the icon that includes the content you want to email.

2. Check the box by the title.

3. Select 'Email' on the right.

4. Click 'Select Contacts' to choose from your contacts list

   or manually type in your contacts' email addresses.

5. Enter a subject line.

6. Choose the date on which you would like your content to be sent.

7. By checking the boxes in step 4, you may add a 'Contact Us' button on your email and for branded apps, an 'App Store Links' button that will take recipients to your App in their app store.

8. You may test the looks of your email by selecting 'Send Test Email' and filling in your email address. This will send your content immediately for your review.

9. When you are satisfied, click 'Send'.
