Display/Hide Updates Button
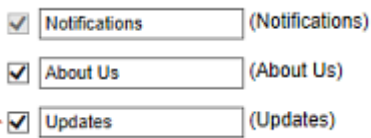

Note: The Updates button is set to display on your App by default.

From the Dashboard or Menu:
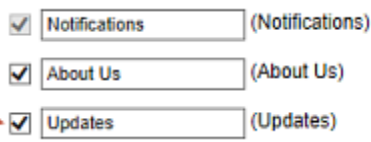

To display your updates:

1. Select 'Mobile App'.
2. Select 'General App Settings'.
3. On the right go to 'App Display Settings' and click 'Continue'.

4. Make sure the box by Updates is checked.
5. An Updates button will display on your App and when clicked your updates will appear.

To hide the Updates button:

1. Follow steps 1 - 3 above.

2. Uncheck the box by Updates.
3. When this box is not checked, the Updates button will not appear on your App.
