## Change Button Order

Note: This feature allows you to control the order in which buttons will be displayed on your App. It will change your Dashboard display as well.

From the Dashboard:

1. Select 'Options' in the header.

2. Choose 'App Buttons'.
3. Hover over the button you wish to change and drag and drop it at the desired location using the move icon.
4. Click 'Update' at the bottom of the screen.
